

# Shiran Dudy

---

## PERSONAL INFORMATION

Address **Cambridge, Massachusetts**  
E-mail [shirdu2@gmail.com](mailto:shirdu2@gmail.com)  
Web [www.shirandudy.com/](http://www.shirandudy.com/) (academic website)

## RESEARCH INTERESTS

### **Broadly focusing on augmenting humans**

- NLP: cultural alignment, personalization, speller systems.
- Informational Retrieval: search engines, retrieval based LM
- Speech: speaker verification, speech recognition
- HCI: user/community-centered design, participatory design.
- Focus values: fairness, user agency, participation

---

## EDUCATION

- |              |   |
|--------------|---|
| 2023-present | <b>Research Scientist in Responsible AI</b><br>Work on technical and socio-technical research.<br>"Northeastern University", Boston, MA, USA<br>My main interest is to promote ethical and responsible AI (RAI).<br>(1) My research revolves around cultural representation in AI, algorithmic fairness, inclusive design, and stakeholder engagements.<br>(2) I am a technical lead in the RAI consulting team of EAI.   |
| 2021-2023    | <b>Research Associate in Human-Computer interaction</b><br>Focus on speech, dialogue systems, responsible AI design.<br>"University of Colorado, Boulder" (CU Boulder), Boulder, CO, USA<br>Participate in the institute for student AI teaming ( <a href="#">iSAT</a> ) project.<br>I research and develop a conversational partner to promote equitable and respectful human-human collaborations. Leading the interruption detection project, and equity oriented intent schema project. The goal is to promote improved learning environments for students. |
| 2013-2020    | <b>Ph.D. in Computer Science</b><br>Focus on NLP, accessibility, and fairness.<br>"Oregon Health and Science University" (OHSU), Portland, OR, USA<br>Participate in Brain-Computer Interface (BCI) accessibility project at <a href="#">CAMBI</a> . I developed language models, and investigated their biases (FST, transformers) with icons, letters, or word symbol sets. The project's goal is to facilitate locked-in individuals of various literacy levels to communicate with their environment.   |
| 2012-2008    | <b>B.Sc. in Biomedical Engineering</b><br>Focused on speech signal processing, accessibility<br>"Ben Gurion University" (BGU), Israel<br>Final project made in signal processing field where I conducted a feasibility test for a Text To Speech system (TTS) for the Hebrew language for visually impaired Hebrew speakers.  |
-

## SELECTED PUBLICATIONS

**"Analyzing Cultural Representations of Emotions in LLMs through Mixed Emotion Survey"**, Shiran Dudy, Ibrahim Said Ahmad, Ryoko Kitajima, and Agata Lapedriza, Affective Computing and Intelligent Interactions (ACII), 2024. Won Best Paper Award

**"Are Generative Language Models Multicultural? A Study on Hausa Culture and Emotions using ChatGPT"**, Ibrahim Said Ahmad, Shiran Dudy, Resmi Ramachandranpillai and Kenneth Church, Cross-Cultural Considerations in NLP workshop (C3NLP), 2024.

**"Bridging the language gap: taxonomy for conversational systems"**, Shiran Dudy, Joewie J. Koh, Abteen Ebrahimi, Alessandro Roncone, Katharina Kann, and Verena Rieser, under submission to LREC-COLING.

**"Dependency Dialogue Acts--Annotation Scheme and Case Study"**, Jon Z Cai, Brendan King, Margaret Perkoff, Shiran Dudy, Jie Cao, Marie Grace, Natalia Wojarnik, Ananya Ganesh, James H Martin, Martha Palmer, Marilyn Walker, and Jeffrey Flanigan, International Workshop on Spoken Dialogue Systems Technology, 2023

**"The Dimensions of Reflection Coding Scheme: A New Tool for Measuring the Impact of Designing for Reflection in Early Childhood"**, Layne Jackson Hubbard, Norielle Adricula, Chelsea Brown, E Margaret Perkoff, Shiran Dudy, Eliana Colunga, and Tom Yeh, Conference on Creativity and Cognition, 2023

**"Expansive Participatory AI: Supporting Dreaming within Inequitable Institutions"**, Shiran Dudy\* and Michael A. Chang\* (equal contribution), Human-Centered AI workshop (HCAI), Neural Information Processing Systems (NEURIPS), 2022.

**"Open-domain Dialogue Generation: What we Can Do, Cannot do, and Should Do Next"**, Katharina Kann, Abteen Ebrahimi, Joewie J. Koh, Shiran Dudy, and Alessandro Roncone, Association for Computational Linguistics (ACL), ConvAI workshop, 2022.

**"Refocusing on Relevance: Personalization in NLG"**, S. Dudy, S. Bedrick, and B. Webber, Empirical Methods in Natural Language Processing (EMNLP), Punta Cana, 2021.

**"Are Some Words Worth More Than Others"**, S. Dudy, S. Bedrick, Empirical Methods in Natural Language Processing (EMNLP), Eval4NLP workshop, online, 2020. Won 2<sup>nd</sup> Best Paper Award

**"Long-Tail Predictions with Continuous-Output Language Models"**, S. Dudy, S. Bedrick, Association for Computational Linguistics (ACL), WinLP workshop, Seattle, 2020.

**"BciPy: Brain-Computer Interface Software in Python"**, T. Memmott, A. Koçanaoğulları, M. Lawhead, D. Klee, S. Dudy, M. Fried-Oken, B. Oken, arxiv, 2020

**"Noisy Neural Language Modeling for Typing Prediction in BCI Communication"**, R. Dong, D. Smith, S. Dudy, S. Bedrick, Association for Computational Linguistics (NAACL), SPLAT workshop, Minneapolis, 2018.

**"Effects of simulated visual acuity and ocular motility impairments on SSVEP brain-computer interface performance: an experiment with Shuffle Speller"**, B. Peters, M. Higger, F. Quivira, S. Bedrick, S. Dudy, B. Eddy, M. Kinsella, T. Memmott, J. Wiedrick, M. Fried-Oken, D. Erdogmus, B. Oken, Brain-Computer Interfaces journal, 2018

**"Compositional Language Modeling for Icon-Based Augmentative and Alternative Communication"**, S. Dudy, S. Bedrick, Association for Computational Linguistics (ACL), DeepLo workshop, Melbourne, 2018.

**"A Multi-Context Character Prediction Model for a Brain-Computer Interface"**, S. Dudy, S. Xu, S. Bedrick, D. Smith, North American Association for Computational Linguistics (NAACL), SCLem workshop, New Orleans, 2018.

**"Automatic Analysis of Pronunciations for Children with Speech Sound Disorders"**, S. Dudy, S. Bedrick, M. Asgari, and A. Kain, Computer Speech and Language (CSL) journal, 2018

**"OHSU @ MediaEval: Adapting Textual Techniques to Multimedia Search"**, S. Dudy, S. Bedrick, MediaEval Benchmarking Initiative for Multimedia Evaluation (IEEE satellite event), Wurzen, 2015

**"Pronunciation Analysis for Children with Speech Sound Disorders"**, S. Dudy, M. Asgari, and A. Kain, IEEE Engineering in Medicine and Biology society (EMBC), Milan, 2015

**"Phonetic Search in a New Target Language Using Multi Language Indexing and Phonetic Mappings"**, In Proceedings 2013 Speech Processing Conference, Tel Aviv, 2013

## ACADEMIC QUALIFICATIONS

2017	<b>Teaching Assistant</b> "Introduction to Deep Learning", Professor Meysam Asgari Included homework preparation and grading, and demos. (OHSU)
2016	<b>Teaching Assistant</b> "Analyzing Sequences", Professor Stephen Wu Included homework preparation and grading. (OHSU)
2013	<b>Signal Processing Researcher</b> Afeka Center for Language Processing (ACLP), Professor Ami Moyal Participate in 2 researches on key-word spotting.
2012-2013	<b>Research Assistant</b> Speech and Signal Processing Lab, Professor Sharon Gannot. The lab focuses on the study of speech and acoustics. Participated in a research to develop a de-reverberated signal to enhance speech recognition performance. "Bar Ilan University" (BIU)
2011-2012	<b>Teaching Assistant</b> "Introduction to Stochastic Processes", Professor Maoz Shamir. Included lesson plan, frontal instruction and grading. (BGU)
2009-2010	<b>Research Assistant</b> Computational Motor Lab, Professor Amir Karniel The lab focuses on the study of human motor control and biomechanics. Participated in the "handshake experiment," based on Turing test theory. (BGU)

## WORK EXPERIENCE

2016	<b>Cylance Inc.</b> (Summer internship) Worked as a deep learning engineer in data science team. Implemented deep learning architectures to detect malware.
2015	<b>Sensory Inc.</b> (Summer internship)

Worked as a speech processing engineer. Integrated trigger-based speaker verification process, incorporated new elements to the process and estimated optimal model parameters. Worked on a user defined process to employ a digit sequence task.

2012 **Vocal-Zoom** (Start-Up company)  
Worked as a signal processing engineer. Their mission is to enable communication and speech recognition, especially in noisy environments.

2011-2012 **Vectorious Medtech** (Start-Up company)  
Worked as a research and development engineer. Their mission is to develop a monitoring device for Congestive Heart Failure patients.

---

## PC SKILLS

Languages: Python, R, Ruby, Matlab, TCL, Cython, C++, Bash/Shell, Cygwin  
Task Mngmnt: SLURM, Hadoop, MPI, Condor, Spark  
OS: Linux, OSX, Windows, Docker (VM)  
ASR Tools: HTK, Kaldi, Openfst  
Search engine: Lucene  
Python Tools: PyTorch, TensorFlow, HuggingFace, virtualenv, spcay, nltk  
Paper related: Latex, Bibtex, vim  
Version Control: Git (repos on github, docker hub)  
Cloud Service: Amazon EC2, Amazon Route 53 (DNS service)

---

## HCI skills

Experiment design. Human subject experiment (including leading an IRB project)  
Applying mixed methods:  
1) Qualitative: semi structured interviews, surveys  
2) Quantitative: data analysis

---

## Workshops

Organized third NLPerspectives workshop, hosted by LREC-COLING, 2024  
Organized the second NLPerspectives workshop, hosted by CEUR-WS, 2023  
  
Organized "Interdisciplinary Approaches to Getting AI Experts and Education Stakeholders Talking", Hosted at AIED, 2022

---

## TALKS

Value based research, Cigna inc., 2023  
  
UserNLP workshop (The World Wide Web Conference), [Personalization in NLG](#), 2022  
NLP class at CU Boulder, guest speaker to discuss "Responsible Dialogue Systems", 2021  
The Hebrew University, invited talk, "Overcoming Limitations of Categorical Neural Language Models", 2021  
Allen Institute for AI, invited talk, "Overcoming Limitations of Categorical Neural Language Models", 2020  
Chang lab, UCSF-Berkeley, invited talk, "a proposal for language model approaches in Ecog based AAC", 2020  
Bar Ilan University, invited talk, "Language Models in supportive AAC", 2019  
Women Who Code, Women in Data Science Series, "Language Models in BCI systems", Portland, 2019  
BCI Meeting, Natural Language Processing Workshop, "Towards Icon Language Models", Asilomar, 2018

---

## AWARDS

Co-PI and leading ["Seeing the world through LLM-colored glasses"](#) project, \$60k  
Community outreach grant, planed a robotics camp for middle school students, 2022

WiML@ICML award recipient to attend WiML and ICML, 2020  
WiNLP Diversity and Inclusion award recipient to attend WiNLP and ACL, 2020  
WiML@ICLR award recipient to attend ICLR, 2020  
Student Research Workshop (SRW) travel award to attend ACL, 2018  
Graduate Student Organization (GSO) at OHSU travel award to attend NAACL, 2018  
GREPSEC cybersecurity workshop scholarship, 2017  
38<sup>th</sup> Security and Privacy Symposium student travel award, 2017

---

**LANGUAGES**

English (high fluency level)  
Hebrew (native speaker)  
Arabic (basic level)

---

**PERSONAL  
SKILLS**

Good human interaction skills  
Good in planning and meeting objectives  
Know how to work under pressure  
Well organized and responsible

---
